

RESIDENTS AGAINST TOXIC WASTE IN THE SOUTH EAST

Inc. No. A0038288B

P.O. Box 180, Dingley Vic 3172 President: Thelma Wakelam 0414 998 337

To the Legislative Assembly of Victoria

We the undersigned residents of Victoria urgently request the Victorian Government to develop a statewide strategy to manage hazardous waste, and to produce a Prescribed Industrial (Hazardous) Waste Management policy and cease to rely on the Lyndhurst landfill. This will ensure alternative treatments to landfill for higher hazard waste are appropriately researched, monitored and implemented.

That the Victorian Government determines to introduce a policy to ensure hazardous waste facilities are located in remote areas well away from populated areas.
